About Me

I am a full-stack developer, passionate about technology and programming. I like to learn new things and I consider myself a very responsible and committed person with my projects.

I am currently majoring in Computer Systems Engineering and minoring in Full-Stack Development at the Instituto Tecnológico de Estudios Superiores de Zamora.

Work Experience

Odontología Integral & Estética
Front-End Developer

I developed a patient management software for Dr. Wendy Berenice Romero Victoria, it is a web system made in Next.JS with Bootstrap for the front-end and Firebase as back-end using authentication services, Firestore database and cloud storage.

Universidad Autónoma de Manizales
Unity developer

I developed three virtual reality games in Unity for a physiotherapy university for senior citizens, consisting of activities that would allow the patient to perform their exercises in a fun and entertaining way.

Education

2016
CBTIS 052

Programming technician

I studied 3 years at CBTIS 052 in Zamora where I majored in programming technician.

2019
ITES de Zamora

Computer Systems Engineering

I am currently at ITES Zamora majoring in Computer Systems Engineering and minoring in Full-Stack Development.
